WILL WATCH COLOMBIANS.

Navy Department Anticipates No Trouble at Cape Tiburon.

Washington, Feb. 4.—The navy department anticipates no trouble from the small band of Colombians who are reported to have crossed into Panama and encamped near Cape Tiburon. They will be kept under close watch and so long as they refrain from making trouble or approaching the canal zone they will not be interfered with. But the naval officers will take care to acquaint the Colombians with the American programme.

Starved Himself to Death.

Carthage, Mo., Feb. 4.—J. G. Myers, a prominent farmer, died Wednesday, having starved himself to death. He had not eaten a particle of food for forty-nine days. Myers was a spiritist, and said recently that his wife, who died some time ago, was urging him to come to her.

OMITS WAR RECORDS

PRESIDENT ROOSEVELT SENDS CORRESPONDENCE ON PANAMA TO SENATE.

FORCES LANDED TEN TIMES

ACTION SANCTIONED BY ISTHMIAN AUTHORITIES IN ALL BUT ONE CASE.

Washington, Feb. 4.—The president sent to the senate during the day a mass of correspondence in response to Senator Gorman's resolution calling for the dates and circumstances under which the United States used military force in the internal affairs of New Grenada or Colombia and whether such uses of military forces were on the initiative of the United States or by the request of New Grenada or Colombia, or in consequence of any official representation of either. The resolution also called for copies of the orders by the navy department relating to such use of military force.

The circumstances under which forces were landed are given by the president in detail, but orders by the war and navy departments concerning the inner workings of such departments and which constitute a part of the records of the office of the military and naval intelligence are withheld on the ground that the disclosure of such confidential matters would be incompatible with the public interest.

United States forces have been landed on the Isthmus of Panama ten times. The first was in October, 1856, at the request of Panama authorities; the second in September, 1860, with the sanction of Panama authorities. Other landings were as follows:

May, 1861; June, 1862; March, 1865; in 1866, month not given; in 1873, in 1885, in November, 1901, and in September, 1902. The last mentioned landing was the only one made without actual request from the government of the Isthmus.

FAST AND FURIOUS DEBATE.

Kentucky and Indiana Lock Horns in the House.

Washington, Feb. 4.—Indiana and Kentucky locked horns in the house Wednesday. The debate, which involved nearly every member of both state delegations, was fast and furious from start to finish. Kentucky demanded of Indiana the return of W. S. Taylor that he might be tried for the assassination of William Goebel. The attack was made by Mr. James (Ky.) and the defense was led by Mr. Crumpacker (Ind.). Partisan feeling rose to an extreme tension. The diplomatic appropriation bill was under consideration at the time.

Mr. James fired both sides of the house to interest and feeling by declaring at the outset that the "rough rider president" was ridiculous in his message to congress favoring international extradition treaties when one state could not get from another fugitives from justice. He had, he said, introduced a bill in which the federal government made extradition compulsory where persons had been indicted for crime. For four years, he said, Governor Durbin of Indiana had protected Taylor, who had been regularly indicted in Kentucky for the murder of Goebel, "and yet I notice that when Durbin comes to town," continued Mr. James, "he is wine and dined by this great Don Quixote upon extradition, who absolutely confides to Durbin the right to give the waiting and anxious world the news that Hanna can run for president if he wants to. And when we all read that we again declare 'the king can do no wrong'."

These remarks met Democratic applause and laughter but stirred the opposition and for something like two hours many members were on their feet at a time and the criminal and political records of both Kentucky and Indiana were handled without gloves.

The tension was lessened and better nature restored by the interposition of a speech on the reorganization of the consular service by Mr. Adams of Pennsylvania, but it afterward broke out again under the lead of Mr. Stanley of Kentucky, only to be again quelled by a long speech against Canadian reciprocity by Mr. Volsted of Minnesota.

The session was concluded at 5 o'clock by a ten-minute appeal by Mr. Harrison of New York, for equal treatment of American citizens abroad, especially for American Hebrews in Russia.

CHANGED ITS TACTICS.

Senate Refuses to Pass Fair Appropriation Bill Without Debate.

Washington, Feb. 4.—After almost allowing the amendment to the urgent deficiency appropriation bill providing for a loan of \$4,600,000 to the St. Louis exposition to get through without any discussion whatever, the senate changed its tactics just as the vote was about to be taken and began a debate on the loan provision which continued for about four hours and was still in progress when the senate adjourned for the day.

The debate was precipitated by a point of order against the amendment by Mr. Bailey, who maintained that the national government was not, as such, concerned with the success or failure of any exposition. He was supported by Mr. Lodge and Mr. Elkins, while speeches were made in support of the amendment by Messrs. Hale, Allison, Spooner, McComas, Corbett and others.

Excitement in Hayti.

Washington, Feb. 4.—Mail advices from thoroughly authentic sources indicate that a terrifying state of affairs has existed recently in Hayti. One letter tells in detail how the recent revolt was suppressed and the plotters shot down indiscriminately. The excitement is still intense and foreign legations are crowded with refugees.

BLOCKADES IN MICHIGAN.

Question of Fuel and Provisions Becoming Serious.

Detroit, Feb. 4.—With a renewal of the snow blockade the question of fuel and provisions has grown more serious than ever in the region lying between Saginaw bay and the lower end of Lake Huron. Harbor Beach has had only one train since Jan. 16. The Pere Marquette line between Saginaw and Port Huron is now also blocked. The Michigan Central had to abandon two trains on its Bay City division but is having less difficulty on its main line.

Muskegon is practically isolated except for the interurban line. Two Pere Marquette trains are stalled in drifts near Agnew. The Allegan division of the Pere Marquette is blocked. Two passenger trains were stalled near Grand Junction all night and a train is snowbound at Zeeland.

The Pere Marquette has a train buried at Scottdale in ten feet of snow. The Three I line is unable to move a train.

The Big Four has succeeded in cutting a train out of a drift near Hartman that had been tied up there for twenty-four hours.

Trains are snowbound and railroad traffic in Indiana is demoralized.

EXPRESS TRAIN WRECKED.

Two Persons Killed and Forty Others Injured.

Halifax, N. S., Feb. 4.—Two dead, two fatally and twenty-five seriously injured is the revised casualty list in the wreck of the Intercolonial express train, the five cars of which left the rails at Hunter's Crossing west of this city and plunged down a thirty-foot embankment into the Shubenacadie river. Everyone of the thirty passengers suffered more or less serious injuries, as did the ten members of the train crew.

Mrs. John Glassey of Halifax and Conductor Robert Duncan were killed. Baggage master J. E. Blair and an Armenian peddler, name not known, were fatally injured.

The wreck is supposed to have resulted from some defect in the wheels of the baggage car, which first left the track. A broken rail was at first thought to have caused the wreck, but investigation showed that this was not the case.

KILLED IN A QUARREL.

Wealthy Planter and His Tenant Shot by a Negro.

Doddsville, Miss., Feb. 4.—John Eastland, a wealthy plantation owner, and Albert Carr, a negro tenant, were killed by Luther Holbert, a negro, in a shooting scrape which grew out of a difficulty between Eastland and Holbert. The tragedy occurred on Eastland's plantation and when news of it reached Doddsville, a posse was instantly organized. When the posse arrived at the plantation further shooting occurred and John Winters, a negro, was killed.

Holbert escaped and posesses from Greenville, Indiana. Cleveland and other points are searching for him and two other negroes, who, it is charged, were implicated with him in the killing of Eastland. The negroes will probably be lynched if captured.

Three Men Badly Burned.

Washington, Pa., Feb. 4.—Mark Grayson was so badly burned that he cannot recover and Alexander Brady and John Greer were seriously burned about the face and body in a gas explosion at the Sterling glass works.

Entire Family Injured.

Erie, Pa., Feb. 4.—George L. Sterrett was fatally burned, his wife Nancy burned, cut and bruised by falling timbers and his three children badly injured by falling timbers in a gas explosion which wrecked their home.

BOTH SIDES ARE FIRM

OPERATORS AND MINERS FAIL TO REACH AN AGREEMENT ON WAGE SCALES.

NEW COMMITTEE APPOINTED

ITS FAILURE TO SETTLE QUESTION MAY RESULT IN A GREAT STRIKE.

Indianapolis, Feb. 4.—The meeting of the operators and miners in joint conference Wednesday was called in the morning in order that the joint scale committee might report its progress and ask for additional instructions. After the reading of the scale committee's report, Mr. Robbins, the leader of the operators, moved an adjournment after appointing a committee composed of one operator and one miner from each state to fix the date for the next meeting of the joint conference. The following committee was appointed:

Operators—H. N. Taylor, Illinois; J. C. Kolsen, Indiana; J. W. Wilson, Ohio; F. L. Robbins, Pennsylvania. Miners—Thomas J. Reynolds, Illinois; George Hargrove, Indiana; W. H. Haskins, Ohio; Patrick Dolan, Pennsylvania.

This committee will meet in Indianapolis on Feb. 15 to arrange for another meeting of the joint conference.

There was great excitement among the delegates when it was seen that the moment for a declaration of a disagreement had arrived. The scale committee reported the present wage scale as their ultimatum and the operators insisted that nothing less than the 1902 scale, which is equivalent to a reduction of 12 per cent in wages, it is claimed, would satisfy them.

Mitchell Hopes for an Agreement.

Mr. F. L. Robbins, for the operators, arose and quietly moved that inasmuch as it seemed impossible to reach an agreement, that adjournment be taken after appointing a joint committee of eight consisting of one miner and one operator from each of the four states forming the competitive district to fix a date for a future convention. President Mitchell quietly seconded the motion, expressing the hope that an agreement would be reached. The convention then adjourned, the operators leaving the hall and the miners going into executive session.

Prospects for an agreement have been gloomy for two days. The 353 operators and 557 miners have declared they would never accept the terms offered by the opposite side.

The possibility of a final disagreement and suspension of work is a topic of conversation among the miners and operators. Leaders on both sides refuse to go into a discussion of the general effect of a suspension of operation on April 1.

The miners have \$1,000,000 in their national treasury. The Illinois miners have \$600,000 in their own treasury, and the other states have enough more to raise it to \$1,000,000, making \$2,000,000 of cash available for any emergency.

A suspension of operations in the four states would involve 117,000 men.

ON CHARGE OF FORGERY.

Several Officials of Pike Lake, Wis., Under Arrest.

Milwaukee, Feb. 4.—An Evening Wisconsin special from Wausau, Wis., says:

Several of the officers of the town of Pike Lake have been arrested on the complaint of the president of the bank of Wittenberg, R. W. Roberts, on charges of forgery. For several years, it is alleged, these officers have carried on a system of forgery by collecting money from different parties on illegally drawn town orders.

Recently about \$2,000 of these orders fell into the hands of the Wittenberg bank for collection, when an investigation showed them to be worthless. The bank brought suit against the town for recovery, but Judge Silverthorn held that as the orders were forgeries, the town was not liable and upon that declaration the arrests were made.

RAYNOR TO BE SENATOR.

Noted Lawyer Will Succeed McComas From Maryland.

Annapolis, Md., Feb. 4.—Eighty-nine of the ninety Democratic members of the Maryland general assembly met in caucus last night and after parleying for more than three hours succeeded in selecting Isidor Raynor for the United States senatorship to succeed Senator Louis E. McComas, the present incumbent. Today Mr. Raynor, a well known Baltimore city lawyer, who achieved an international reputation as the leading counsel for Admiral Schley during the naval court of inquiry, will be elected by the members of the general assembly in joint session to the United States senate.

Brooded Over Criticism.

Chillicothe, O., Feb. 4.—John H. Miller, county auditor, married, aged fifty-three, brooded over political criticism and committed suicide Wednesday in the rear room of the auditor's office.

IN FAVOR OF MACHEN.

Note Drawn by Lorenz Produced in Postal Trial.

Washington, Feb. 4.—Shortly before adjournment Wednesday counsel for the defense in the postal trial produced a note dated July 1, 1893, for \$25,000 drawn by George E. Lorenz in favor of August W. Machen. In the opening statement of the defense Mr. Kunley, in behalf of Lorenz, said he would prove the existence of an indebtedness of this amount on the part of Lorenz to Machen. The note, he said, was offered for this purpose and as explaining the various remittances forwarded by Mr. Lorenz to Machen.

A hundred of more notes aggregating \$53,000 were identified by President S. D. Carr of the National Bank of Commerce of Toledo, O., as having been discounted by his bank on the loans of Lorenz and his brother and Machen, the loans having been made to enable them to develop their oil properties in Wood county, O.

Mr. Carr further testified that Machen had sold out his interest to Lorenz, the bank accepting the single endorsement of George E. Lorenz.

Earlier in the day Diller B. Groff produced various checks in favor of his brother as evidence that he had paid him all that was due as his share of the profits. Mr. Groff explained his failure to send remittances to Lorenz after November, 1892, by the fact that the government still owed Groff Brothers \$13,000 and that it was necessary to pay the manufacturers of the fasteners.

PRAISES THE GRAND ARMY.

President Roosevelt Addresses Civil War Veterans.

Washington, Feb. 4.—President Roosevelt, General John C. Black, the commander-in-chief of the Grand Army, Secretary Taft, General Nelson A. Miles and other well known officials were guests of honor at the banquet last night to the department of the Potomac of the Grand Army of the Republic.

The president arrived at the banquet hall shortly after 10 o'clock and was given a cordial reception. He listened to a patriotic speech by General Black and then was introduced to the large assemblage by Thomas S. Hopkins, the toastmaster.

The president spoke for about a half hour. He paid a tribute to the Grand Army and its work and in a general way spoke of the duties of citizenship and of the lessons taught by the Civil war. He always felt, he said, that the veterans of the war taught the remainder of us as important lessons for peace as for war.

Colonel John P. Irish of San Francisco upheld the president's attitude on the Panama question. Representative Graft talked on "The Greater Republic." General Miles paid high compliment to Secretary Taft and assured him he could rely upon the support of every officer on the active and retired list. Secretary Taft spoke of and complimented the work of the army in the Philippines. Remarks were also made by Admiral Hartlett, "Corporal" James Tanner and General George Harris.

MAY SOLVE MURDER MYSTERY.

Servant Girl Gives a Clue to the Assassin of Miss Schafer.

Lafayette, Ind., Feb. 4.—What may prove to be a clue to the Bedford murder mystery has been given to the Lafayette detectives by Katherine Griffin, a servant in the employ of George F. Jenks of this city.

Miss Griffin declared that she is certain that the man who killed Miss Schafer was the same person who followed her on the night the murder was committed, and she believes that the school teacher was mistaken for herself. Miss Griffin visited in Bedford this winter and her visit was brought to a sudden termination the morning following the tragedy because of her fright and the fear that the murderer, when he discovered his mistake, would also take her life.

GARRISONS RELIEVED.

Germans Raise Sieges of Windhoek and Okahandja.

Berlin, Feb. 4.—A cablegram has been received from Swakopmund, German Southwest Africa, from the commander of the German garrison Hahit saying the garrisons at Windhoek and Okahandja have been relieved by Franke's company with two guns. The relief of Okahandja occurred Jan. 27, and was without losses.

The Germans defeated the natives in a six-hour engagement on Jan. 28. Natives have killed forty-four settlers, including women and children, and in most cases the bodies were mutilated. The military losses amount to twenty-six and there have been fifty other fatalities.

DEMOCRATS OF ILLINOIS.

Will Hold Their Convention at Springfield on June 14.

Chicago, Feb. 4.—The Democratic state committee Wednesday fixed the date of the state convention as June 14 and decided upon Springfield as the place for holding it. The presidential aspirations of various candidates were under consideration. Friends of W. R. Hearst and Congressman James R. Williams claim majorities in the convention for their candidates.

Tidal Wave Drowns Fishermen.

Brest, France, Feb. 4.—A tidal wave swept the coast of Penmarc'h, department of Finistere. One third of the commune of Penmarc'h is under water, many fishboats were wrecked and some of their occupants were drowned. An immense amount of damage was done. The people living near the shore were obliged to flee from their houses.

RUSSIAN FLEET SAILS

WARSHIPS OF THE CZAR LEAVE PORT ARTHUR FOR SECRET DESTINATION.

LANDS EXPEDITION IN KOREA

JAPAN REPORTED TO HAVE DIS EMBARKED AN IMMENSE FORCE THERE.

New York, Feb. 4.—A special to the Herald from Port Arthur says the Russian fleet has left that place.

St. Paul, Feb. 4.—A special to the Globe from Tokio says:

Japan has landed an army of 100,000 men on Korean soil, which will be the first great battle ground.

EVEN AT COST OF WAR.

Great Britain Will Prevent Russian Black Sea Fleet's Escape.

London, Feb. 4.—The Russian reply to the Japanese note will not be delivered before Friday. If it is given out then it will be because Japanese tension will not stand the strain and that Russia prefers to put Japan in a bad light before Europe.

The position of Great Britain is one of grim determination to prevent the escape of the Russian fleet from the Black sea, even at the cost of war. Baron Hayashi, Japanese minister to Great Britain, described the situation in the far East as "certainly very threatening," but said that everything depended upon Russia's reply. "It is highly improbable," the minister continued, "that Russia will make any aggressive move before the Japanese government has received and considered the Russian reply. What Russia wishes to do is to throw the responsibility of taking the initiative upon Japan."

St. Petersburg, Feb. 4.—Russia is ready for war. The czar conferred with his minister of war, who told him that 500,000 men were ready for battle in the far East. The minister of marine told the czar the Russian fleets in open waters to the south of Vladivostok are coaled and fully provisioned.

ATTACKS UNITED STATES.

Russian Paper Lays Blame of Approaching War on America.

London, Feb. 4.—Special dispatches received from the far East and published this morning add nothing to the knowledge of the actual situation.

The St. Petersburg correspondent of the Daily Telegraph quotes from the Novoye Vremya a bitter editorial attack upon the United States which he supposes to be an outcome of the dispatch of American consuls to Mukden and Antung.

The Novoye Vremya accuses the United States of a desire to win the hegemony of the entire globe and exclude Europe from the far Eastern market, and declares "if, as it seems likely, war breaks out, it will have been instigated by the Yankees with their utilitarian views."

DISTURBANCES IN KOREA.

General Insurrection Will Probably Occur in the Spring.

Seoul, Feb. 4.—Serious disturbances are reported in the country surrounding Tonkin. Thousands of armed men have declared that they are not Korean subjects. The malcontents are divided into three separate organizations. It is thought that a general insurrection will occur next spring.

Foreign citizens at various stations in the country have confirmed the reports that the Korean officials are pro-Russian and have asked for the appointment of foreigners in order to insure their personal safety. It is stated that the Russians now claim that the Yalu river timber concessions cover all branches of the Yalu. Affairs in Seoul are quiet.

RUSSIAN DECISION MEANS WAR.

Japanese Officials Exasperated at Tardiness of Reply.

Tokio, Feb. 4.—Events indicate that the prolonged tension has reached a climax.

The Marquis Ito, president of the privy council, was summoned from the country during the night and the emperor received him and a council of the elder statesmen was held with the war minister and three admirals. The highest officials make no pretense of concealment of their exasperation at the tardiness of the Russian reply.

An unofficial dispatch says the Russian decision means war.

ONE DOLLAR WHEAT.

Price of Cereal in Sampterom of Chicago Board of Trade.

Chicago, Feb. 4.—One dollar wheat in the sampterom of the board of trade became an actuality during the day. The fact that the price which has long been the dream of the farmer had again been attained gave added stimulus to the efforts of the bull leaders in the pits and shortly after the dollar mark was reached in the sampterom prices in the wheat, corn and oats pits established new records, eclipsing previous high marks for the year.

The scale committee reported the present wage scale as their ultimatum and the operators insisted that nothing less than the 1902 scale, which is equivalent to a reduction of 12 per cent in wages, it is claimed, would satisfy them.

Mitchell Hopes for an Agreement.

Mr. F. L. Robbins, for the operators, arose and quietly moved that inasmuch as it seemed impossible to reach an agreement, that adjournment be taken after appointing a joint committee of eight consisting of one miner and one operator from each of the four states forming the competitive district to fix a date for a future convention. President Mitchell quietly seconded the motion, expressing the hope that an agreement would be reached. The convention then adjourned, the operators leaving the hall and the miners going into executive session.

Prospects for an agreement have been gloomy for two days. The 353 operators and 557 miners have declared they would never accept the terms offered by the opposite side.

The possibility of a final disagreement and suspension of work is a topic of conversation among the miners and operators. Leaders on both sides refuse to go into a discussion of the general effect of a suspension of operation on April 1.

The miners have \$1,000,000 in their national treasury. The Illinois miners have \$600,000 in their own treasury, and the other states have enough more to raise it to \$1,000,000, making \$2,000,000 of cash available for any emergency.

A suspension of operations in the four states would involve 117,000 men.

ON CHARGE OF FORGERY.

Several Officials of Pike Lake, Wis., Under Arrest.

Milwaukee, Feb. 4.—An Evening Wisconsin special from Wausau, Wis., says:

Several of the officers of the town of Pike Lake have been arrested on the complaint of the president of the bank of Wittenberg, R. W. Roberts, on charges of forgery. For several years, it is alleged, these officers have carried on a system of forgery by collecting money from different parties on illegally drawn town orders.

Recently about \$2,000 of these orders fell into the hands of the Wittenberg bank for collection, when an investigation showed them to be worthless. The bank brought suit against the town for recovery, but Judge Silverthorn held that as the orders were forgeries, the town was not liable and upon that declaration the arrests were made.

RAYNOR TO BE SENATOR.

Noted Lawyer Will Succeed McComas From Maryland.

Annapolis, Md., Feb. 4.—Eighty-nine of the ninety Democratic members of the Maryland general assembly met in caucus last night and after parleying for more than three hours succeeded in selecting Isidor Raynor for the United States senatorship to succeed Senator Louis E. McComas, the present incumbent. Today Mr. Raynor, a well known Baltimore city lawyer, who achieved an international reputation as the leading counsel for Admiral Schley during the naval court of inquiry, will be elected by the members of the general assembly in joint session to the United States senate.

Brooded Over Criticism.

Chillicothe, O., Feb. 4.—John H. Miller, county auditor, married, aged fifty-three, brooded over political criticism and committed suicide Wednesday in the rear room of the auditor's office.

IN FAVOR OF MACHEN.

Note Drawn by Lorenz Produced in Postal Trial.

Washington, Feb. 4.—Shortly before adjournment Wednesday counsel for the defense in the postal trial produced a note dated July 1, 1893, for \$25,000 drawn by George E. Lorenz in favor of August W. Machen. In the opening statement of the defense Mr. Kumley, in behalf of Lorenz, said he would prove the existence of an indebtedness of this amount on the part of Lorenz to Machen. The note, he said, was offered for this purpose and as explaining the various remittances forwarded by Mr. Lorenz to Machen. A hundred of more notes aggregating \$53,000 were identified by President S. D. Carr of the National Bank of Commerce of Toledo, O., as having been discounted by his bank on the loans of Lorenz and his brother and Machen, the loans having been made to enable them to develop their oil properties in Wood county, O.

Mr. Carr further testified that Machen had sold out his interest to Lorenz, the bank accepting the single endorsement of George E. Lorenz.

Earlier in the day Diller B. Groff produced various checks in favor of his brother as evidence that he had paid him all that was due as his share of the profits. Mr. Groff explained his failure to send remittances to Lorenz after November, 1902, by the fact that the government still owed Groff Brothers \$13,000 and that it was necessary to pay the manufacturers of the fasteners.

PRAISES THE GRAND ARMY.

President Roosevelt Addresses Civil War Veterans.

Washington, Feb. 4.—President Roosevelt, General John C. Black, the commander-in-chief of the Grand Army, Secretary Taft, General Nelson A. Miles and other well known officials were guests of honor at the banquet last night to the department of the Potomac of the Grand Army of the Republic.

The president arrived at the banquet hall shortly after 10 o'clock and was given a cordial reception. He listened to a patriotic speech by General Black and then was introduced to the large assemblage by Thomas S. Hopkins, the toastmaster.

The president spoke for about a half hour. He paid a tribute to the Grand Army and its work and in a general way spoke of the duties of citizenship and of the lessons taught by the Civil war. He always felt, he said, that the veterans of the war taught the remainder of us as important lessons for peace as for war.

Colonel John P. Irish of San Francisco upheld the president's attitude on the Panama question. Representative Grafton talked on "The Greater Republic." General Miles paid high compliment to Secretary Taft and assured him he could rely upon the support of every officer on the active and retired list. Secretary Taft spoke of and complimented the work of the army in the Philippines. Remarks were also made by Admiral Bartlett, "Corporal" James Tanner and General George Harris.

MAY SOLVE MURDER MYSTERY.

Servant Girl Gives a Clue to the Assassin of Miss Schafer.

Lafayette, Ind., Feb. 4.—What may prove to be a clue to the Bedford murder mystery has been given to the Lafayette detectives by Katherine Griffin, a servant in the employ of George F. Jenks of this city.

Miss Griffin declared that she is certain that the man who killed Miss Schafer was the same person who followed her on the night the murder was committed, and she believes that the school teacher was mistaken for herself. Miss Griffin visited in Bedford this winter and her visit was brought to a sudden termination the morning following the tragedy because of her fright and the fear that the murderer, when he discovered his mistake, would also take her life.

GARRISONS RELIEVED.

Germans Raise Sieges of Windhoek and Okahandja.

Berlin, Feb. 4.—A cablegram has been received from Swakopmund, German Southwest Africa, from the commander of the German gunboat Habicht saying the garrisons at Windhoek and Okahandja have been relieved by Franke's company with two guns. The relief of Okahandja occurred Jan. 27, and was without losses.

The Germans defeated the natives in a six-hour engagement on Jan. 28. Natives have killed forty-four settlers, including women and children, and in most cases the bodies were mutilated. The military losses amount to twenty-six and there have been fifty other fatalities.

DEMOCRATS OF ILLINOIS.

Will Hold Their Convention at Springfield on June 14.

Chicago, Feb. 4.—The Democratic state committee Wednesday fixed the date of the state convention as June 14 and decided upon Springfield as the place for holding it. The presidential aspirations of various candidates were under consideration. Friends of W. R. Hearst and Congressman James R. Williams claim majorities in the convention for their candidates.

Tidal Wave Drowns Fishermen.

Brest, France, Feb. 4.—A tidal wave swept the coast of Penmarch, department of Finistere. One third of the commune of Penmarch is under water, many fishboats were wrecked and some of their occupants were drowned. An immense amount of damage was done. The people living near the shore were obliged to flee from their houses.

New York, Feb. 4.—A special to the Herald from Port Arthur says the Russian fleet has left that place.

St. Paul, Feb. 4.—A special to the Globe from Tokio says: Japan has landed an army of 100,000 men on Korean soil, which will be the first great battle ground.

EVEN AT COST OF WAR.

Great Britain Will Prevent Russian Black Sea Fleet's Escape.

London, Feb. 4.—The Russian reply to the Japanese note will not be delivered before Friday. If it is given out then it will be because Japanese tension will not stand the strain and that Russia prefers to put Japan in a bad light before Europe.

The position of Great Britain is one of grim determination to prevent the escape of the Russian fleet from the Black sea, even at the cost of war. Baron Hayashi, Japanese minister to Great Britain, described the situation in the far East as "certainly very threatening," but said that everything depended upon Russia's reply. "It is highly improbable," the minister continued, "that Russia will make any aggressive move before the Japanese government has received and considered the Russian reply. What Russia wishes to do is to throw the responsibility of taking the initiative upon Japan."

St. Petersburg, Feb. 4.—Russia is ready for war. The czar conferred with his minister of war, who told him that 500,000 men were ready for battle in the far East. The minister of marine told the czar the Russian fleets in open waters to the south of Vladivostok are coaled and fully provisioned.

ATTACKS UNITED STATES.

Russian Paper Lays Blame of Approaching War on America.

London, Feb. 4.—Special dispatches received from the far East and published this morning add nothing to the knowledge of the actual situation. The St. Petersburg correspondent of the Daily Telegraph quotes from the Novoe Vremya a bitter editorial attack upon the United States which he supposes to be an outcome of the dispatch of American consuls to Mukden and Antung.

The Novoe Vremya accuses the United States of a desire to win the hegemony of the entire globe and exclude Europe from the far Eastern market, and declares "if, as it seems likely, war breaks out, it will have been instigated by the Yankees with their utilitarian views."

DISTURBANCES IN KOREA.

General Insurrection Will Probably Occur in the Spring.

Seoul, Feb. 4.—Serious disturbances are reported in the country surrounding Tonkin. Thousands of armed men have declared that they are not Korean subjects. The malcontents are divided into three separate organizations. It is thought that a general insurrection will occur next spring.

Foreign citizens at various stations in the country have confirmed the reports that the Korean officials are pro-Russian and have asked for the appointment of foreigners in order to insure their personal safety. It is stated that the Russians now claim that the Yalu river timber concessions cover all branches of the Yalu. Affairs in Seoul are quiet.

RUSSIAN DECISION MEANS WAR.

Japanese Officials Exasperated at Tardiness of Reply.

Tokio, Feb. 4.—Events indicate that the prolonged tension has reached a climax.

The Marquis Ito, president of the privy council, was summoned from the country during the night and the emperor received him and a council of the elder statesmen was held with the war minister and three admirals. The highest officials make no pretense of concealment of their exasperation at the tardiness of the Russian reply.

An unofficial dispatch says the Russian decision means war.

ONE DOLLAR WHEAT.

Price of Cereal in Samplers of Chicago Board of Trade.

Chicago, Feb. 4.—One dollar wheat in the sampler of the board of trade became an actuality during the day. The fact that the price which has long been the dream of the farmer had again been attained gave added stimulus to the efforts of the bull leaders in the pits and shortly after the dollar mark was reached in the sampler room prices in the wheat, corn and oats pits established new records, eclipsing previous high marks for the year.

Navy Department Anticipates No Trouble at Cape Tiburon.

Washington, Feb. 4.—The navy department anticipates no trouble from the small band of Colombians who are reported to have crossed into Panama and encamped near Cape Tiburon. They will be kept under close watch and so long as they refrain from making trouble or approaching the canal zone they will not be interfered with. But the naval officers will take care to acquaint the Colombians with the American programme.

OMITS WAR RECORDS

PRESIDENT ROOSEVELT SENDS
CORRESPONDENCE ON PANAMA
TO SENATE.

FORCES LANDED TEN TIMES

ACTION SANCTIONED BY ISTHMIAN
AUTHORITIES IN ALL
BUT ONE CASE.

Washington, Feb. 4.—The president sent to the senate during the day a mass of correspondence in response to Senator Gorman's resolution calling for the dates and circumstances under which the United States used military force in the internal affairs of New Grenada or Colombia and whether such uses of military forces were on the initiative of the United States or by the request of New Grenada or Colombia, or in consequence of any official representation of either. The resolution also called for copies of the orders by the navy department relating to such use of military force.

The circumstances under which forces were landed are given by the president in detail, but orders by the war and navy departments concerning the inner workings of such departments and which constitute a part of the records of the office of the military and naval intelligence are withheld on the ground that the disclosure of such confidential matters would be incompatible with the public interest.

United States forces have been landed on the Isthmus of Panama ten times. The first was in October, 1856, at the request of Panama authorities; the second in September, 1860, with the sanction of Panama authorities. Other landings were as follows:

May, 1861; June, 1862; March, 1865; in 1866, month not given; in 1873, in 1885, in November, 1901, and in September, 1902. The last mentioned landing was the only one made without actual request from the government of the Isthmus.

FAST AND FURIOUS DEBATE.

Kentucky and Indiana Lock Horns in the House.

Washington, Feb. 4.—Indiana and Kentucky locked horns in the house Wednesday. The debate, which involved nearly every member of both state delegations, was fast and furious from start to finish. Kentucky demanded of Indiana the return of W. S. Taylor that he might be tried for the assassination of William Goebel. The attack was made by Mr. James (Ky.) and the defense was led by Mr. Crumpacker (Ind.). Partisan feeling rose to an extreme tension. The diplomatic appropriation bill was under consideration at the time.

Mr. James fired both sides of the house to interest and feeling by declaring at the outset that the "rough rider president" was ridiculous in his message to congress favoring international extradition treaties when one state could not get from another fugitives from justice. He had, he said, introduced a bill in which the federal government made extradition compulsory where persons had been indicted for crime. For four years, he said, Governor Durbin of Indiana had protected Taylor, who had been regularly indicted in Kentucky for the murder of Goebel, "and yet I notice that when Durbin comes to town," continued Mr. James, "he is wine and dined by this great Don Quixote upon extradition, who absolutely confides to Durbin the right to give the waiting and anxious world the news that Hanna can run for president if he wants to. And when we all read that we again declare 'the king can do no wrong.'"

These remarks met Democratic applause and laughter but stirred the opposition and for something like two hours many members were on their feet at a time and the criminal and political records of both Kentucky and Indiana were handled without gloves.

The tension was lessened and better nature restored by the interposition of a speech on the reorganization of the consular service by Mr. Adams of Pennsylvania, but it afterward broke out again under the lead of Mr. Stanley of Kentucky, only to be again quelled by a long speech against Canadian reciprocity by Mr. Volsted of Minnesota.

The session was concluded at 5 o'clock by a ten-minute appeal by Mr. Harrison of New York, for equal treatment of American citizens abroad, especially for American Hebrews in Russia.

CHANGED ITS TACTICS.

Senate Refuses to Pass Fair Appropriation Bill Without Debate.

Washington, Feb. 4.—After almost allowing the amendment to the urgent deficiency appropriation bill providing for a loan of \$4,600,000 to the St. Louis exposition to get through without any discussion whatever, the senate changed its tactics just as the vote was about to be taken and began a debate on the loan provision which continued for about four hours and was still in progress when the senate adjourned for the day.

The debate was precipitated by a point of order against the amendment by Mr. Bailey, who maintained that the national government was not, as such, concerned with the success or failure of any exposition. He was supported by Mr. Lodge and Mr. Elkins, while speeches were made in support of the amendment by Messrs. Hale, Allison, Spooner, McComas, Corbett and others.

Excitement in Hayti.

Washington, Feb. 4.—Mail advices from thoroughly authentic sources indicate that a terrifying state of affairs has existed recently in Hayti. One letter tells in detail how the recent revolt was suppressed and the plotters shot down indiscriminately. The excitement is still intense and foreign legations are crowded with refugees.

BLOCKADES IN MICHIGAN.

Question of Fuel and Provisions Becoming Serious.

Detroit, Feb. 4.—With a renewal of the snow blockade the question of fuel and provisions has grown more serious than ever in the region lying between Saginaw bay and the lower end of Lake Huron. Harbor Beach has had only one train since Jan. 16. The Pere Marquette line between Saginaw and Port Huron is now also blocked. The Michigan Central had to abandon two trains on its Bay City division but is having less difficulty on its main lines.

Muskegon is practically isolated except for the interurban line. Two Pere Marquette trains are stalled in drifts near Agnew. The Allegan division of the Pere Marquette is blocked. Two passenger trains were stalled near Grand Junction all night and a train is snowbound at Zeeland.

The Pere Marquette has a train buried at Scottsdale in ten feet of snow. The Three I line is unable to move a train.

The Big Four has succeeded in cutting a train out of a drift near Hartman that had been tied up there for twenty-four hours.

Trains are snowbound and railroad traffic in Indiana is demoralized.

EXPRESS TRAIN WRECKED.

Two Persons Killed and Forty Others Injured.

Halifax, N. S., Feb. 4.—Two dead, two fatally and twenty-five seriously injured is the revised casualty list in the wreck of the Intercolonial express train, the five cars of which left the rails at Hunter's Crossing west of this city and plunged down a thirty-foot embankment into the Shubenacadie river. Everyone of the thirty passengers suffered more or less serious injuries, as did the ten members of the train crew.

Mrs. John Glassey of Halifax and Conductor Robert Duncan were killed. Baggage-master J. E. Blair and an Armenian peddler, name not known, were fatally injured.

The wreck is supposed to have resulted from some defect in the wheels of the baggage car, which first left the track. A broken rail was at first thought to have caused the wreck, but investigation showed that this was not the case.

KILLED IN A QUARREL.

Wealthy Planter and His Tenant Shot by a Negro.

Doddsville, Miss., Feb. 4.—John Eastland, a wealthy plantation owner, and Albert Carr, a negro tenant, were killed by Luther Holbert, a negro, in a shooting scrape which grew out of a difficulty between Eastland and Holbert. The tragedy occurred on Eastland's plantation and when news of it reached Doddsville, a posse was instantly organized. When the posse arrived at the plantation further shooting occurred and John Winters, a negro, was killed.

Holbert escaped and posesses from Greenville, Indiana. Cleveland and other points are searching for him and two other negroes, who, it is charged, were implicated with him in the killing of Eastland. The negroes will probably be lynched if captured.

Three Men Badly Burned.

Washington, Pa., Feb. 4.—Mark Grayson was so badly burned that he cannot recover and Alexander Brady and John Greer were seriously burned about the face and body in a gas explosion at the Sterling glass works.

Entire Family Injured.

Eric, Pa., Feb. 4.—George L. Sterrett was fatally burned, his wife Nancy burned, cut and bruised by falling timbers and his three children badly injured by falling timbers in a gas explosion which wrecked their home.

ITS FAILURE TO SETTLE CUES
TION MAY RESULT IN A
GREAT STRIKE.

Indianapolis, Feb. 4.—The meeting of the operators and miners in joint conference Wednesday was called in the morning in order that the joint scale committee might report its progress and ask for additional instructions. After the reading of the scale committee's report, Mr. Robbins, the leader of the operators, moved an adjournment after appointing a committee composed of one operator and one miner from each state to fix the date for the next meeting of the joint conference. The following committee was appointed:

Operators—H. N. Taylor, Illinois; J. C. Kolsen, Indiana; J. W. Wilson, Ohio; F. L. Robbins, Pennsylvania. Miners—Thomas J. Reynolds, Illinois; George Hargrove, Indiana; W. H. Haskins, Ohio; Patrick Dolan, Pennsylvania.

This committee will meet in Indianapolis on Feb. 15 to arrange for another meeting of the joint conference.

There was great excitement among the delegates when it was seen that the moment for a declaration of a disagreement had arrived. The scale committee reported the present wage scale as their ultimatum and the operators insisted that nothing less than the 1902 scale, which is equivalent to a reduction of 12 per cent in wages, it is claimed, would satisfy them.

Mitchell Hopes for an Agreement.

Mr. F. L. Tokio, Feb. 4.—Events indicate that the prolonged tension has reached a climax. The Marquis Ito, president of the privy council, was summoned from the country during the night and the emperor received him and a council of the elder statesmen was held with the war minister and three admirals. The highest officials make no pretense of concealment of their exasperation at the tardiness of the Russian reply.

An unofficial dispatch says the Russian decision means war.

ONE DOLLAR WHEAT.

Price of Cereal in Sampleroom of Chicago Board of Trade.

Chicago, Feb. 4.—One dollar wheat in the sampleroom of the board of trade became an actuality during the day. The fact that the price which has long been the dream of the farmer had again been attained gave added stimulus to the efforts of the bull leaders in the pits and shortly after the dollar mark was reached in the sampleroom prices in the wheat, corn and oats pits established new records, eclipsing previous high marks for the year.

SETBACK FOR SENATOR HANNA

Attacked With a Congestive Chill That Proved Alarming.

Washington, Feb. 4.—Senator Hanna had a setback late Wednesday afternoon which for a time considerably alarmed his family, who have been encouraged to hope that he was getting to be himself again, but the congestive attack which they feared was averted to some extent by prompt action and last night the senator, while not so well as early in the day, showed excellent rallying power and improvement over his condition at sundown.

The setback came in the form of an attack that resembled sick spells that have seized the senator on two or three occasions in the past few years. He was seized about 5:30 o'clock in the afternoon with a congestive chill which heretofore has been marked by a rush of blood to the head and coldness of the extremities.

Members of the family were on hand at its first outbreak and by prompt application of mustard plasters and hot water, the attack was prevented from becoming so serious as it was feared it might become and later in the evening it was stated that the senator's condition was again almost the same as it has been for weeks.

Mr. Hanna's condition is said to be grave and Dr. Brewer of New York city has been summoned.

What Pigs Can Be Taught.

Owing to its obstinacy and seeming stupidity the pig is usually classed among the dull animals. This, however, is not a just estimate of its intelligence. "Learned" pigs that could pick out letters of the alphabet have been exhibited at fairs. Throw a pig into deep water, and it will begin swimming ashore at once, which is more than most men are able to do.

In France they have been trained to hunt for truffles (which are hidden underground) and to draw the plow. They have even been taught to act as pointers. In most cases they are trained by means of reward for success. In pointing, for example, when they blunder they get a stone, but if, when they spot the bird, they drop their tail and ears and sink on their knees and do not rise until after the bird has risen they are rewarded with pudding.

The Best Water.

A writer in Vin does not think highly of mineral waters. He says: "The best water is the water containing the least mineral matter in it. The nearer you can come to getting absolutely pure water (H₂O) to drink the more easy it will be to keep in good health. The simplest form in which absolutely pure water is found is in rain. And rainwater collected from off a clean surface and stored in a clean reservoir is as good as anything one can find. The best substitute for rainwater is good distilled water. In fact, distilled water may be somewhat preferable, as it is not subject to accidental contamination in the many ways rainwater is. To argue that absolutely pure water is not healthful is equal to saying that the addition of pollution improves it—a proposition that will not stand the test of hard common sense."

Where the Octopus Is Eaten.

The octopus is very largely used as an article of food in southern Italy. Its long tentacles are cut transversely, so that when served at table they have the appearance of rings. The fish, when taken by day, are lured from the crevices of the rocks by a piece of red flannel at the end of a bamboo, which they attempt to grasp, and they are then speared with a trident. At night an iron cradle with a bright flame of resinous wood is fixed to the bows of the boat. This attracts the fish and leads him to his doom. These fires are now being entirely superseded by acetylene gas, and the catches are so enormous as to threaten the octopus with destruction.

THE GUARANTEED CATARRH CURE.

H. P. Dunn & Co. Will Return Money if Hyomei Fails. No Stomach Dosing.

Hyomei has made so many cures of the most chronic and deep seated cases of catarrh, that H. P. Dunn & Co. consider it a specific in this disease.

They extend an invitation to all catarrh sufferers to call at their store and purchase a Hyomei outfit with the distinct understanding that it will be absolutely free unless it affects a cure.

The chief reason for the unusual success of Hyomei in the treatment of catarrhal troubles and other diseases of the air passages, is the fact that it cures by a new principle, impregnating the air you breathe with healing and germ killing balsams. On this account it reaches the seat of the disease in a way impossible to pills, drugs or other stomach dosing.

Many of H. P. Dunn & Co.'s customers who have suffered with catarrh since childhood have been cured completely by this scientific remedy.

The complete Hyomei outfit costs \$1, and consists of an inhaler that can be carried in the purse or pocket, a medicine dropper and a bottle of Hyomei. Extra bottles can be obtained for 50c., making it a most economical remedy for the cure of catarrh.

Do not suffer longer with catarrhal disorders, but get a Hyomei outfit from H. P. Dunn & Co., under their guarantee to return the money if it fails. You run no risk whatever. If it cures, the treatment is not expensive, while if it fails, H. P. Dunn & Co. will refund your money and it costs you absolutely nothing. 5

MUST PAY THE RENT.

Decision Filed Today by Judge Warner in the Case of Nevers & Keene vs A. Mark.

This morning Judge J. H. Warner filed his decision in the case of Nevers & Keene vs A. Mark, finding for the plaintiffs. This case came on for trial on January 29 on stipulation of attorneys for both sides and the facts are about as follows: On Feb. 5, 1902 the plaintiffs leased to the defendant the first floor and part of the basement of the brick block owned by them on Sixth street. The said lease run for one year from March 1, 1902 to March 1, 1903, with the privilege given to the defendant to take the store for the succeeding year. About March 1, 1903, the defendant took possession and continued to pay his rental of \$75 regularly. About Sept. 1, 1902 the parties to this action agreed on a change in the lease. Mr. Mark wanted a new front in the store and agreed to pay \$50 toward the expense thereof and surrender his full right to the basement. This was all satisfactory and the deal went through. Mr. Mark continuing as before to pay his \$75 a month rent. It was, according to the facts, agreed at that time that Mr. Mark would take the building for another year, this being a verbal agreement, and this would run the lease until March 1, 1904. Mr. Mark vacated the building on December 1 last, without the leave of the plaintiffs.

The court concluded that the lease was still in force and effect and that it was not surrendered in any manner or substituted by any parole agreement, and ordered judgment for the plaintiffs for two months' rent, December and January.

DEERWOOD.

Everybody is putting up ice.

Mrs. H. Patterson is on the sick list. Jay McCarville is visiting friends in Duluth.

Revival meetings at the First M. E. church closed last week.

Mrs. F. C. Gormley left Wednesday for her home in Duluth.

Rev. Parish, of Cambridge, Minn., visited his many friends in Deerwood last week.

Miss Clark has again resumed her duties as primary teacher after a week's illness.

E. R. Mason and family returned last week from a trip east. They report a pleasant time.

Jack Finn, our former night operator, froze his foot while out chasing some young men around Serpent lake.

Nichols Kline, of Cincinnati, Ohio, spoke to a packed house at Elmore's hall on socialism and afterwards formed a club of seventeen members with the following officers: Robt. Archibald, chairman; Frank Engman, secretary; Bob Roberts, treasurer.

Great excitement was felt in our little village on account of a little mixup on Jan. 28th between two of our prominent young men. The quarrel was of a few days standing and included most of the young men around town. We understand the champion challenged other young men concerned in the affair, but they turned the white feather, being afraid to get within reach of his long arm.

BRAKES FAIL TO HOLD.

Several People Injured in Street Car Collision at St. Paul.

St. Paul, Feb. 4.—Failure of the hand brakes to hold a bobtail car on the Selby avenue hill last night resulted in the car sliding backward and colliding with the approaching dummy, which pushed the cars up the hill. The bobtail car was badly shattered and Arthur Moss, Miss Sadie Fowler, S. Scott, Ernest Matthes, J. F. Anderson and Mrs. E. L. Moss were badly hurt. Several other passengers were slightly hurt.

SLTBACK FOR SENATOR HANNA

Attacked With a Congestive Chills That Proved Alarming.

Washington, Feb. 4.—Senator Hanna had a setback late Wednesday afternoon which for a time considerably alarmed his family, who have been encouraged to hope that he was getting to be himself again, but the congestive attack which they feared was averted to some extent by prompt action and last night the senator, while not so well as early in the day, showed excellent rallying power and improvement over his condition at sundown.

The setback came in the form of an attack that resembled sick spells that have seized the senator on two or three occasions in the past few years. He was seized about 5:30 o'clock in the afternoon with a congestive chill which heretofore has been marked by a rush of blood to the head and coldness of the extremities.

Members of the family were on hand at its first outbreak and by prompt application of mustard plasters and hot water, the attack was prevented from becoming so serious as it was feared it might become and later in the evening it was stated that the senator's condition was again almost the same as it has been for weeks.

Mr. Hanna's condition is said to be grave and Dr. Brewer of New York city has been summoned.

What Pigs Can Be Taught.

Owing to its obstinacy and seeming stupidity the pig is usually classed among the dull animals. This, however, is not a just estimate of its intelligence. "Learned" pigs that could pick out letters of the alphabet have been exhibited at fairs. Throw a pig into deep water, and it will begin swimming ashore at once, which is more than most men are able to do.

In France they have been trained to hunt for truffles (which are hidden underground) and to draw the plow. They have even been taught to act as pointers. In most cases they are trained by means of reward for success. In pointing, for example, when they blunder they get a stone, but if, when they spot the bird, they drop their tail and ears and sink on their knees and do not rise until after the bird has risen they are rewarded with pudding.

The Best Water.

A writer in Vin does not think highly of mineral waters. He says: "The best water is the water containing the least mineral matter in it. The nearer you can come to getting absolutely pure water (H₂O) to drink the more easy it will be to keep in good health. The simplest form in which absolutely pure water is found is in rain. And rain-water collected from off a clean surface and stored in a clean reservoir is as good as anything one can find. The best substitute for rainwater is good distilled water. In fact, distilled water may be somewhat preferable, as it is not subject to accidental contamination in the many ways rainwater is. To argue that absolutely pure water is not healthful is equal to saying that the addition of pollution improves it—a proposition that will not stand the test of hard common sense."

Where the Octopus Is Eaten.

The octopus is very largely used as an article of food in southern Italy. Its long tentacles are cut transversely, so that when served at table they have the appearance of rings. The fish, when taken by day, are lured from the crevices of the rocks by a piece of red flannel at the end of a bamboo, which they attempt to grasp, and they are then speared with a trident. At night an iron cradle with a bright flame of resinous wood is fixed to the bows of the boat. This attracts the fish and leads him to his doom. These fires are now being entirely superseded by acetylene gas, and the catches are so enormous as to threaten the octopus with destruction.

THE GUARANTEED CATARRH CURE.

H. P. Dunn & Co. Will Return Money if Hyomei Fails. No Stomach Dosing.

Hyomei has made so many cures of the most chronic and deep seated cases of catarrh, that H. P. Dunn & Co. consider it a specific in this disease.

They extend an invitation to all catarrh sufferers to call at their store and purchase a Hyomei outfit with the distinct understanding that it will be absolutely free unless it affects a cure.

The chief reason for the unusual success of Hyomei in the treatment of catarrhal troubles and other diseases of the air passages, is the fact that it cures by a new principle, impregnating the air you breathe with healing and germ killing balsams. On this account it reaches the seat of the disease in a way impossible to pills, drugs or other stomach dosing.

Many of H. P. Dunn & Co.'s customers who have suffered with catarrh since childhood have been cured completely by this scientific remedy.

The complete Hyomei outfit costs \$1, and consists of an inhaler that can be carried in the purse or pocket, a medicine dropper and a bottle of Hyomei. Extra bottles can be obtained for 50c., making it a most economical remedy for the cure of catarrh.

Do not suffer longer with catarrhal disorders, but get a Hyomei outfit from H. P. Dunn & Co., under their guarantee to return the money if it fails. You run no risk whatever. If it cures, the treatment is not expensive, while if it fails, H. P. Dunn & Co. will refund your money and it costs you absolutely nothing. 5

MUST PAY THE RENT.

Decision Filed Today by Judge Warner in the Case of Nevers & Keene vs A. Mark.

This morning Judge J. H. Warner filed his decision in the case of Nevers & Keene vs A. Mark, finding for the plaintiffs. This case came on for trial on January 29 on stipulation of attorneys for both sides and the facts are about as follows: On Feb. 5, 1902 the plaintiffs leased to the defendant the first floor and part of the basement of the brick block owned by them on Sixth street. The said lease run for one year from March 1, 1902 to March 1, 1903, with the privilege given to the defendant to take the store for the succeeding year. About March 1, 1903, the defendant took possession and continued to pay his rental of \$75 regularly. About Sept. 1, 1902 the parties to this action agreed on a change in the lease. Mr. Mark wanted a new front in the store and agreed to pay \$50 toward the expense thereof and surrender his full right to the basement. This was all satisfactory and the deal went through. Mr. Mark continuing as before to pay his \$75 a month rent. It was, according to the facts, agreed at that time that Mr. Mark would take the building for another year, this being a verbal agreement, and this would run the lease until March 1, 1904. Mr. Mark vacated the building on December 1 last, without the leave of the plaintiffs.

The court concluded that the lease was still in force and effect and that it was not surrendered in any manner or substituted by any parole agreement, and ordered judgment for the plaintiffs for two months' rent, December and January.

DEERWOOD.

Everybody is putting up ice.

Mrs. H. Patterson is on the sick list. Jay McCarville is visiting friends in Duluth.

Revival meetings at the First M. E. church closed last week.

Mrs. F. C. Gormley left Wednesday for her home in Duluth.

Rev. Parish, of Cambridge, Minn., visited his many friends in Deerwood last week.

Miss Clark has again resumed her duties as primary teacher after a week's illness.

E. R. Mason and family returned last week from a trip east. They report a pleasant time.

Jack Finn, our former night operator, froze his foot while out chasing some young men around Serpent lake.

Nichols Kline, of Cincinnati, Ohio, spoke to a packed house at Elmore's hall on socialism and afterwards formed a club of seventeen members with the following officers: Robt. Archibald, chairman; Frank Engman, secretary; Bob Roberts, treasurer.

Great excitement was felt in our little village on account of a little mixup on Jan. 28th between two of our prominent young men. The quarrel was of a few days standing and included most of the young men around town. We understand the champion challenged other young men concerned in the affair, but they turned the white feather, being afraid to get within reach of his long arm.

A. W. WHEATLEY IS PROMOTED Superintendent of Shops is Made Assistant Superintendent of Motive Power

J. P. ANDERSON SUPERINTENDENT To Succeed Mr. Wheatley--Asst. Superintendent of Motive Power is New Office.

The ability of Supt. Arthur W. Wheatley, of the Northern Pacific shops in this city, has again been recognized and circulars are out announcing his appointment to the office of assistant superintendent of motive power of the entire Northern Pacific system. Mr. Wheatley is succeeded at the shops by J. P. Anderson who, since the resignation of A. Dinan some time ago, has been general foreman.

The rise of Mr. Wheatley in the railroad world has been almost phenomenal, but it is the result of close application and good hard work, and he stands today as a living example of what plenty of brain work with enough energy will do. Twelve years ago Mr. Wheatley came to this city and took a position in the N. P. shops. It was not long, however, before his ability was recognized and promotion after promotion followed, and he finally left Staples where he was made foreman of the round house, being virtually in charge of the N. P. business there at that time. From Staples he went to Livingston where he was master mechanic and later to Glendive where he held a similar position. He was brought back to Brainerd and made superintendent of the shops to succeed S. L. Bean, who resigned to go with the Santa Fe system several months ago.

The office, assistant superintendent of motive power, has just been created, it being presumed of course that the business of the superintendent has increased to such an extent that it requires some assistance. Mr. Wheatley will make his headquarters in St. Paul.

The new superintendent of the shops, J. P. Anderson, is also a product of the shops in this city, having worked not long ago at his trade as a machinist. He is well liked by all the men and will doubtless be a valuable man in the position.

The announcement has not been made who will succeed Mr. Anderson as general foreman at the shops, but some action will be taken in a few days.

There has been one notable feature in reference to Supt. Wheatley's short reign at the head of the shops in this city. Never before has there been the harmony between the men and the management as during the past few months. The men themselves say this and they state that they have always found Mr. Wheatley heart and soul with them, even to the extent of taking a deep interest in their pleasures as well as their work.

The change dates from Feb. 1.

A RATHER PATHETIC STORY.

Two Brothers at St. Joseph's Hospital
Sick With Consumption and
Both Will Die.

Unconscious of the outcome of their sickness two brothers, Henry and Nick Bevin, both of Stoney Brook, are at St. Joseph's hospital and there is a rather pathetic story connected with their case. Both brothers live north of here and some time ago one of them was sent to St. Joseph's hospital and it was found that he had consumption and was not long for this world. Finally the older brother, who was so solicitous of his brother's welfare, was also taken with the same dread disease and he too was brought to Brainerd. The one last taken to the hospital has the most aggravated case and he will probably die before the other. For several days the brother brought to the hospital first was not advised of his brother's presence at the institution or of his serious illness.

MUSIC AND DRAMA.

SHAY GRAND OPERA CO.

The performance of the Rose Cecilia Shay grand opera company here next Monday evening will doubtless attract a large and socially brilliant audience. The company is one of unusual excellence and Miss Shay, despite her youth, has already made a most enviable reputation as a prima donna. She is a very beautiful young woman and beyond peradventure of a doubt an artist of the first water. Almost without a dissenting voice on the part of the critics, and with a remarkably universality of opinion on the part of the public, she has been most warmly and cordially received. She comes to us 'next Monday evening supported by an incorporated company of artists. Among these may be mentioned Alexandre Lion, for two seasons pre-eminently the star of the great French opera company, of New Orleans; Joseph Fredericks, the only member of Miss Shay's previous organization to be retained. William Stevens another of the company's tenors has been identified with the Emma Juch grand opera company and the Damosch and Seidel orchestras and other similar organizations for years. Lawrence Mooney is said by many competent critics to be the best baritone now singing on the American stage. Miss Mary Carrington, the second soprano of the company, was for several seasons with the famous Tavoli grand opera company, of San Francisco and Savages opera Co. She was educated abroad and sang for two seasons in light opera in Paris. Sarah Carr, the first mezzo-contralto of the company, was for three seasons with the Bostonians. The second contralto of the company is Miss Laura Minturn, a girl of great beauty. Signor Carlo Nicosis is the musical director whom Miss Shay has been fortunate enough to engage for this season and who was allowed wide latitude in selecting the musicians for the full orchestra which the company at a great expense carries this season.

Escaped an Awful Fate.

Mr. H. Haggins of Melbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by H. P. Dunn & Co., Druggists. Price 50c & \$1.00. Trial Bottle free.

LOST BOTH FEET

Ole Skogen Brought to St. Joseph's Hospital with Frozen Feet--Both Were Amputated After His Arrival.

Ole Skogen, of Pequot, is at St. Joseph's hospital and it is more than likely that he will have a hard tussle with death, as he is in a rather critical condition. Some time ago he froze his feet while out driving and he did not attend to the frozen members for a time, with the result that when he was sent to the hospital here he was in a precarious condition. It was found necessary to immediately amputate both feet, one above the ankle and the other just below it with a part of the heel left on. The man is suffering much pain and it is not likely that he will live.

FOUND AN OPENING

Ole Anderson, a Farmer, Falls Through an Opening in the Floor at Slipp's Hardware Store.

Yesterday afternoon Ole Anderson, a farmer living a few miles from the city, while walking in the rear end of the Slipp hardware store, stepped into a trap door opening and fell to the basement below onto some boxes and iron, sustaining quite severe injuries. When examined it was found that he had two broken ribs and was otherwise badly bruised up. He was taken to the N. P. house where he will probably be laid up for some time.

A. W. WHEATLEY IS PROMOTED Superintendent of Shops is Made Assistant Superintendent of Motive Power

J. P. ANDERSON SUPERINTENDENT To Succeed Mr. Wheatley--Asst. Superintendent of Motive Power is New Office.

The ability of Supt. Arthur W. Wheatley, of the Northern Pacific shops in this city, has again been recognized and circulars are out announcing his appointment to the office of assistant superintendent of motive power of the entire Northern Pacific system. Mr. Wheatley is succeeded at the shops by J. P. Anderson who, since the resignation of A. Dinan some time ago, has been general foreman.

The rise of Mr. Wheatley in the railroad world has been almost phenomenal, but it is the result of close application and good hard work, and he stands today as a living example of what plenty of brain work with enough energy will do. Twelve years ago Mr. Wheatley came to this city and took a position in the N. P. shops. It was not long, however, before his ability was recognized and promotion after promotion followed, and he finally left Staples where he was made foreman of the round house, being virtually in charge of the N. P. business there at that time. From Staples he went to Livingston where he was master mechanic and later to Glendive where he held a similar position. He was brought back to Brainerd and made superintendent of the shops to succeed S. L. Bean, who resigned to go with the Santa Fe system several months ago.

The office, assistant superintendent of motive power, has just been created, it being presumed of course that the business of the superintendent has increased to such an extent that it requires some assistance. Mr. Wheatley will make his headquarters in St. Paul.

The new superintendent of the shops, J. P. Anderson, is also a product of the shops in this city, having worked not long ago at his trade as a machinist. He is well liked by all the men and will doubtless be a valuable man in the position.

The announcement has not been made who will succeed Mr. Anderson as general foreman at the shops, but some action will be taken in a few days.

There has been one notable feature in reference to Supt. Wheatley's short reign at the head of the shops in this city. Never before has there been the harmony between the men and the management as during the past few months. The men themselves say this and they state that they have always found Mr. Wheatley heart and soul with them, even to the extent of taking a deep interest in their pleasures as well as their work.

The change dates from Feb. 1.

A RATHER PATHETIC STORY.

Two Brothers at St. Joseph's Hospital Sick With Consumption and Both Will Die.

Unconscious of the outcome of their sickness two brothers, Henry and Nick Bevin, both of Stoney Brook, are at St. Joseph's hospital and there is a rather pathetic story connected with their case. Both brothers live north of here and some time ago one of them was sent to St. Joseph's hospital and it was found that he had consumption and was not long for this world. Finally the older brother, who was so solicitous of his brother's welfare, was also taken with the same dread disease and he too was brought to Brainerd. The one last taken to the hospital has the most aggravated case and he will probably die before the other. For several days the brother brought to the hospital first was not advised of his brother's presence at the institution or of his serious illness.

MUSIC AND DRAMA.

SHAY GRAND OPERA CO.

The performance of the Rose Cecilia Shay grand opera company here next Monday evening will doubtless attract a large and socially brilliant audience. The company is one of unusual excellence and Miss Shay, despite her youth, has already made a most enviable reputation as a prima donna. She is a very beautiful young woman and beyond peradventure of a doubt an artist of the first water. Almost without a dissenting voice on the part of the critics, and with a remarkably universality of opinion on the part of the public, she has been most warmly and cordially received. She comes to us next Monday evening supported by an incorporated company of artists. Among these may be mentioned Alexandre Lion, for two seasons pre-eminent the star of the great French opera company, of New Orleans; Joseph Fredericks, the only member of Miss Shay's previous organization to be retained. William Stevens another of the company's tenors has been identified with the Emma Juch grand opera company and the Damrosch and Seidel orchestras and other similar organizations for years. Lawrence Mooney is said by many competent critics to be the best baritone now singing on the American stage. Miss Mary Carrington, the second soprano of the company, was for several seasons with the famous Tavoli grand opera company, of San Francisco and Savages opera Co. She was educated abroad and sang for two seasons in light opera in Paris. Sarah Carr, the first mezzo-contralto of the company, was for three seasons with the Bostonians. The second contralto of the company is Miss Laura Minturn, a girl of great beauty. Signor Carlo Nicosia is the musical director whom Miss Shay has been fortunate enough to engage for this season and who was allowed wide latitude in selecting the musicians for the full orchestra which the company at a great expense carries this season.

Escaped an Awful Fate.

Mr. H. Haggins of Melbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by H. P. Dunn & Co., Druggists. Price 50c & \$1.00. Trial Bottle free.

LOST BOTH FEET

Ole Skogen Brought to St. Joseph's Hospital with Frozen Feet—Both Were Amputated After His Arrival.

Ole Skogen, of Pequot, is at St. Joseph's hospital and it is more than likely that he will have a hard tussle with death, as he is in a rather critical condition. Some time ago he froze his feet while out driving and he did not attend to the frozen members for a time, with the result that when he was sent to the hospital here he was in a precarious condition. It was found necessary to immediately amputate both feet, one above the ankle and the other just below it with a part of the heel left on. The man is suffering much pain and it is not likely that he will live.

Nearly Forfeits His Life.

A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for burns, bruises, skin eruptions and piles. 25c at H. P. Dunn & Co.'s drug store.

FOUND AN OPENING

Ole Anderson, a Farmer, Falls Through an Opening in the Floor at Slipp's Hardware Store.

Yesterday afternoon Ole Anderson, a farmer living a few miles from the city, while walking in the rear end of the Slipp hardware store, stepped into a trap door opening and fell to the basement below onto some boxes and iron, sustaining quite severe injuries. When examined it was found that he had two broken ribs and was otherwise badly bruised up. He was taken to the N. P. house where he will probably be laid up for some time.

BERTRAND ESTATE IS SETTLED

Judge Sanborn, of the Probate Court, Returned Today From Walker Where

He Went Yesterday.

Judge J. T. Sanborn, of the probate court, returned this noon from Walker where he went yesterday for a hearing in the final accounting in the estate of the late Napoleon Bertrand. The same was allowed and the administrator, J. T. Gardner, was discharged.

It will be remembered that Bertrand, who was connected with a bank at Walker, committed suicide a few years ago by shooting himself with a revolver.

A RATHER PATHETIC STORY.

Two Brothers at St. Joseph's Hospital Sick With Consumption and

Both Will Die.

Unconscious of the outcome of their sickness two brothers, Henry and Nick Bevin, both of Stoney Brook, are at St. Joseph's hospital and there is a rather pathetic story connected with their case. Both brothers live north of here and some time ago one of them was sent to St. Joseph's hospital and it was found that he had consumption and was not long for this world. Finally the older brother, who was so solicitous of his brother's welfare, was also taken with the same dread disease and he too was brought to Brainerd. The one last taken to the hospital has the most aggravated case and he will probably die before the other. For several days the brother brought to the hospital first was not advised of his brother's presence at the institution or of his serious illness.

MUSIC AND DRAMA.

SHAY GRAND OPERA CO.

The performance of the Rose Cecilia Shay grand opera company here next Monday evening will doubtless attract a large and socially brilliant audience. The company is one of unusual excellence and Miss Shay, despite her youth, has already made a most enviable reputation as a prima donna. She is a very beautiful young woman and beyond peradventure of a doubt an artist of the first water. Almost without a dissenting voice on the part of the critics, and with a remarkably universality of opinion on the part of the public, she has been most warmly and cordially received. She comes to us next Monday evening supported by an incorporated company of artists. Among these may be mentioned Alexandre Lion, for two seasons pre-eminently the star of the great French opera company, of New Orleans; Joseph Fredericks, the only member of Miss Shay's previous organization to be retained. William Stevens another of the company's tenors has been identified with the Emma Juch grand opera company and the Damosch and Seidel orchestras and other similar organizations for years. Lawrence Mooney is said by many competent critics to be the best baritone now singing on the American stage. Miss Mary Carrington, the second soprano of the company, was for several seasons with the famous Tavori grand opera company, of San Francisco and Savages opera Co. She was educated abroad and sang for two seasons in light opera in Paris. Sarah Carr, the first mezzo-contralto of the company, was for three seasons with the Bostonians. The second contralto of the company is Miss Laura Minturn, a girl of great beauty. Signor Carlo Nicosisia is the musical director whom Miss Shay has been fortunate enough to engage for this season and who was allowed wide latitude in selecting the musicians for the full orchestra which the company at a great expense carries this season.

Escaped an Awful Fate.

Mr. H. Haggins of Melbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by H. P. Dunn & Co., Druggists. Price 50c & \$1.00. Trial Bottle free.

LOST BOTH FEET

Ole Skogen Brought to St. Joseph's Hospital with Frozen Feet—Both Were

Amputated After His Arrival.

Ole Skogen, of Pequot, is at St. Joseph's hospital and it is more than likely that he will have a hard tussle with death, as he is in a rather critical condition. Some time ago he froze his feet while out driving and he did not attend to the frozen members for a time, with the result that when he was sent to the hospital here he was in a precarious condition. It was found necessary to immediately amputate both feet, one above the ankle and the other just below it with a part of the heel left on. The man is suffering much pain and it is not likely that he will live.

Nearly Forfeits His Life.

A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for burns, bruises, skin eruptions and piles. 25c at H. P. Dunn & Co.'s drug store.

FOUND AN OPENING

Ole Anderson, a Farmer, Falls Through an Opening in the Floor at Slipp's

Hardware Store.

Yesterday afternoon Ole Anderson, a farmer living a few miles from the city, while walking in the rear end of the Slipp hardware store, stepped into a trap door opening and fell to the basement below onto some boxes and iron, sustaining quite severe injuries. When examined it was found that he had two broken ribs and was otherwise badly bruised up. He was taken to the N. P. house where he will probably be laid up for some time.

SPEAKS TO KENTUCKIANS. William J. Bryan Delivers Address on Various Topics.

Frankfort, Ky., Feb. 4.—William J. Bryan spoke last night by invitation of the Kentucky legislature to a crowd that filled the Capitol theater, while many were turned away. Both bodies of the general assembly adjourned and held memorial services in honor of William E. Goebel in the hall of the house of representatives. Mr. Bryan and several members of the legisla-
ture made eulogistic addresses and an original poem was read and religious services were held at the grave.
Mr. Bryan was warmly received by the audience in the capitol. Mr. Bryan said he hoped Waterson would yet repent and be a Democrat.
Referring to Goebel, Bryan said his murder was encompassed by corporate influences that had determined he should never be governor. He said the man who wrote Goebel he should never be governor is alive now and his name is mentioned in connection with the chairmanship of the Democratic national committee.
He said he believed McKinley's indictment of Cleveland in which he said Cleveland made money the master of man, was correctly drawn.
Bryan said he did not want a re-organization of the Democratic party because he did not want the party to take the chance of falling into the hands of the money power.

BECAUSE HIS WIFE WAS DYING. Young Philadelphian Commits Suicide by Shooting.

Philadelphia, Feb. 4.—William Anderson, a young married man of this city, committed suicide Wednesday under pathetic circumstances. He was informed by a physician that his wife, who had given birth to a daughter, was dying. He immediately picked up a revolver and saying, "If she goes, I'm going, too," shot himself through the head. His wife died a few minutes after the shooting and he passed away late at night. Besides the baby they leave a four-year-old daughter.

Farmer's Body Found. Leverne, Minn., Feb. 4.—The frozen and half-burned body of Martin Enger, a farmer living in Rose Dell township, was found in the ashes of a burned straw pile in a field half way between his home and the village of Jasper. Enger was last seen alive in Jasper on Jan. 23. His watch, money and other valuables are missing.

Baby Perishes From Cold.
Sioux City, Ia., Feb. 4.—After lying unconscious in bed for over two days and two nights in a cold room filled with coal gas Mrs. Leon Aeck is barely alive and her fifteen-month-old baby is dead, having succumbed to the cold and the gas while lying at its mother's side.

IROQUOIS FIRE HEROINE How Carrie Anderson Saved Many at Chicago Disaster.

PRISONER ON A HIGH ESCAPE.
With Foot Caught and Enveloped in the Flames, Which Badly Burned Her, She Guided a Ladder Across Which Many Scrambled to Safety. Rescued With Others.

At the Samaritan hospital in Chicago, her head and left side swathed in bandages, lay Carrie Anderson, the child whose deed of heroism at the Iroquois fire was recounted in brief during the coroner's inquest, but whose name was never learned until the other day, says the Chicago Record-Herald.

Through the steadfast bravery of this fourteen-year-old girl at least fifty lives were saved on the fatal afternoon. She it was who, despite the fact that her entire left side was being lapped by flame, caught the end of the ladder thrown across the alley from the Northwestern University building and guided it to a firm resting place on the fire escape of the second balcony. Across this ladder many men, women and children scrambled to safety from the inferno behind them.

She was in the balcony with her mother, who was employed as a cleaner at the theater, and while she escaped her mother perished. The child does not know yet that her mother is dead and thinks that she is merely badly injured.

"I was in the highest balcony with mamma," she said in recounting her experiences to a reporter, "and when the fire began I jumped up and tried to pull mamma with me. We got to the fire escape all right, and I got out on it. I had hold of mamma, but she did not reach the open air out of all the smoke with me, and I saw her kind of fall back. I know she got hurt, because she has not been to see me.

"I fell on the escape, and my foot got caught so that I could not stand up. I was lying on my right side, and the fire burned me dreadful on my left arm and leg and head, but I was too excited to think much of that then. There were only two other people on the escape with me. One was a woman down below me who couldn't do anything, and perhaps she was dead. Just beside me was a man. He kept moaning all the time.

"You don't realize what this is, little girl," he said to me, and then a few minutes after he began groaning and crying to God. That was when I was burning, and he was too. All this time I had my foot so tightly caught I couldn't move to get farther away from the wicked fire; but, anyway, there was no place to go unless I jumped down into the alley, where I could see people away below me. Then the man lay very still and the fire was worse over us.

"Then all of a sudden I saw a ladder in the air coming from the building opposite us. I don't know how I caught the ladder because I can't remember anything clearly after that; everything hurt so. But I caught it some way, and then men came across to me and pulled me out from where my foot was fastened. They dragged me across the ladder and a whole lot of people came after us.

After her splendid deed Carrie was taken into the Northwestern building and given temporary relief. Then she was hurried to the Samaritan hospital.

Carrie's family is Norwegian, both her father, Axel Anderson, a bricklayer, and her grandmother having been born in Christiania. Her mother was also a Norwegian girl, who came to America from her native land to marry young Anderson, who had reached Chicago three years previous to her arrival in 1885 and who had been her sweetheart in Norway. The little heroine herself was born in Chicago and lives with her grandmother and father in that city.

Eggs in Trade For Ton of Coal.
A Macon county (Ill.) farmer recently traded five dozen fresh eggs for a ton of bituminous coal, establishing a new record for high price of the former, says a Bloomington dispatch to the Chicago Record-Herald. The eggs were valued at 40 cents a dozen, and the coal was sold for \$2 a ton. Both parties to the deal were satisfied. The egg man started into the poultry business on an extensive scale last spring with 100 hens and pullets. He sold during the summer \$100 worth of eggs and chickens and figures up his feed bill at less than \$80, his net profit being \$100. He finds that the extra attention paid to this department of his farm brought in satisfactory returns.

A Leap Year Romance.
"Twain leap year when they met,
The maiden fair and he,
She sweetly murmured, 'Pet,
I pray you marry me.'
Upon her breast he fell
And softly answered, 'Yes.'
She took him home to dwell
In new found happiness.

She'd known him but a week
Before the fateful day,
Before she dared to speak;
They wedded right away.

Ah, must the truth be told?
He was a worthless wight.
His manner soon grew cold,
He stayed out late at night.

With sorrow in her breast
She's left alone to weep.
Oh, ladies, it is best
To look before you leap!

A POISON DIET TEST. Michigan University Students to Take Growing Dose of Deadly Drug.

Upper classmen of the Alpha Sigma fraternity at the University of Michigan at Ann Arbor recently decided to drink an unknown poison till its effects on the human system are known completely to science, says the Chicago Tribune. The Alpha Sigma is a homeopathic fraternity affiliated with the New York fraternity now drinking the venom of the cobra, Dr. A. E. Ibershoff, head of the Michigan fraternity, will keep the name of the poison secret till the test is complete. It will be a hitherto untried poison and not a snake venom.

Beginning with a minute draft taken once every two hours, the poison will be increased every week till the men can stand a quantity of poison which might be fatal at first. This will continue for several months until the men begin to have a slight illness, with poison symptoms. Individual reports on symptoms are to be made every two hours and will be sent to New York for classification.

A searching threefold examination of physical, mental and moral character is given each patient before his experiment begins. Not only the bodily ailments, but the mental eccentricities of each man, are recorded with conscientious thoroughness. A bad habit, bad temper or other idiosyncrasy is to be tested under the drug's effect as thoroughly as the heart action. Ordinary bad habits are to be continued during the poison period. Smoking is allowed, but all alcoholic drinking must stop.

The treatment will begin in a short time, and in three months a second threefold examination will complete the test of one drug. If no serious results are felt, the Michigan boys expect then to try snake poison. Of the sixteen members of the fraternity only half have the courage to try the poison, while freshmen are excluded.

Accurate knowledge of every effect produced by the poison is the object of the test. According to the theory of homeopathy, snake poisons will become useful medicines when physicians can prescribe them with a certain knowledge of what human functions will be affected thereby.

"IF I WERE NOT PRESIDENT" Roosevelt Says He Would Like Nothing Better Than Target Shooting.

"If I were not president and it would not too badly expose my marksmanship," said President Roosevelt the other day when a delegation from the National Schutzenbund called at the White House, "I would like nothing better than to go out and take a shot with you at the targets." The delegates comprised Henry Kroeger, president; Fred Schiff and Henry Behrens, secretaries, and other officers and members of the executive committee of the National Schutzenbund, and their mission was to extend to Mr. Roosevelt an invitation to attend and participate in the rifle shooting festival which is to be held at Schutzen park, Union Hill, N. J., June 12 to 20. The invitation was a beautiful piece of pen and ink work by one of the best artists in New York and bound handsomely in black morocco, says the Washington correspondent of the Philadelphia Public Ledger. The concluding paragraph of the invitation reads:

"Knowing that you take great interest in rifle shooting and being an expert shot yourself, we sincerely hope that you will be able to spare a few hours of your valuable time and encourage by your presence the humble efforts of our organization toward making sharpshooting a national practice and thereby furthering the defensive power of our country."

The president said he hoped to see the time when there would be a target for rifle practice in every little village in the land, for only by the proficiency of the great mass of the citizens of the country in the use of arms could the national defense ultimately be maintained.

The president was obliged to decline the invitation.

Deafness in Fashion. It may be a solace to deaf women to know their ailment is fashionable, says the New York Press. Queen Alexandra is totally deaf, the Duchess of Marlborough is hard of hearing and one of Mrs. Ogden Mills' cardrums is out of commission. It is said Miss Bentrice Mills also is suffering from deafness, which is unusual in a girl so young. So far ear trumpets have been tabooed, but Mrs. Griswold Gray of Paris, another woman of fashion who is deaf, defies precedent and carries about with her an elaborate device made of hard rubber. Sitting with her sister, Mrs. James A. Burden, in the Burden opera box, Mrs. Gray got out her hearing apparatus, and it was offered to the guests—one at a time, of course. In this way there was no occasion for shouting. When Mrs. Gray was ready to go home her ear trumpet was packed away in a plush bag. Some persons say Mrs. Gray takes pride in her deafness.

Mushrooms in Reach of All.
Mushrooms can be grown in America equal in quality to the French product and in a few years will be as cheap as any garden vegetable, and the importation from France, which costs America many millions annually, will perhaps stop entirely, according to Dr. B. M. Duggar of Missouri university, who has announced the results of several years' experiments, says a Columbia (Mo.) special to the Chicago Tribune. He has discovered that the tissue from mushroom heads furnish planting material for a new crop and when planted in a bed of rich soil prepared for the purpose will produce a crop that can be harvested within six weeks.

NAPOLEON'S AMBITION. Even as a Child He Was Yearning to Be a Commander.

Even as a child Napoleon Bonaparte showed evidence of the power which was to make him one of the greatest commanders that the world has ever known. His mother often told the following anecdote of his early boyhood; he was, in fact, no more than eight years old when it occurred:

"One night he was walking in our garden meditatively. It was raining violently. His brothers had sought shelter in the house, where they were playing. I knocked at the window several times and made him signs to come to me. He shrugged his shoulders with an appearance of ill humor and continued his walk. He was drenched, but he did not mind the storm and continued his walk, with his head uncovered and his eyes fixed on the ground. Sometimes he stopped before the little fountain in the garden and appeared to delight in seeing it run and to arrest its precipitancy with his hand. Some claps of thunder were heard, which caused him a nervous shudder, but it did not seem to be fear. He then crossed his arms over his chest and looked at the heavens, courageously waiting for another peal of thunder. I sent my servant to order him to come in. Napoleon said to him, with coldness, but respectfully, 'Tell my mother that it is warm and I am taking an airing.' When the servant again entreated he turned his back on him and quickened his step. It was only when the storm had ceased that he came in, wet to the skin.

"That was not right, my child," I said to him. 'You have disobeyed me.' 'I could not help disobeying you,' he answered. 'I do not know what kept me in the garden, but if I am to be a soldier I must accustom myself to rains and to storms. I am not a girl. I am a man.'

"You are a child, my son, and a disobedient child. If you intend to be a soldier you will learn that it is necessary for you to obey."

"But I will command," said he, with an expression that made us laugh.

"Before you command," I replied, 'you will be compelled to obey, and for a long time. When you enter the service you will not be a general.'

"He advanced toward me, took my hand in his and pressed it, thus tacitly acknowledging that I was right, but not willing to confess it. Already at that age he was so proud.

"What were you thinking about during your walk? I said to him, while I pressed my lips to his wet hair.

"I do not know. I do not remember. I was thinking of a great many things. Ah, I was endeavoring to recollect a dream I had last night, a dream that pleases me very much! I dreamed that I was a bishop. That is grand, is it not? Do bishops go to the wars?"

"No, my child. That is expressly forbidden them."

"Then I will be a soldier when I am no longer a child. At fifteen you are no longer a child, are you, mother?"

"I think you are something of a child still."

"He paused a few moments and, looking on the ground, said, 'At fifteen I will be a man.'

"He then freed himself from my arms and ran into the garden."

Freezes to Death in Storm.

DECIDES TO INCORPORATE.

Minnesota Farmers' Exchange Will

Be Capitalized at \$500,000.

St. Paul, Feb. 4.—Having decided to

incorporate under the laws of this

state, with capital stock of \$500,000,

the Minnesota Farmers' exchange took

an adjournment yesterday to March

10. It is expected that at that time

a committee appointed to prepare

articles of incorporation will be ready

to report and the committee on con-

stitution and by-laws will have com-

pleted its work.

The exchange perfected its perma-

nent organization by continuing the

officers of the temporary organization

and electing a board of nine directors.

SPEAKS TO KENTUCKIANS.

William J. Bryan Delivers Address on

Various Topics.

Frankfort, Ky., Feb. 4.—William J. Bryan spoke last night by invitation of the Kentucky legislature to a crowd that filled the Capitol theater, while many were turned away. Both bodies of the general assembly adjourned and held memorial services in honor of William E. Gobel in the hall of the house of representatives. Mr. Bryan and several members of the legislature made eulogistic addresses and an original poem was read and religious services were held at the grave.

Mr. Bryan was warmly received by the audience in the capitol. Mr. Bryan said he hoped Watterson would yet repent and be a Democrat.

Referring to Gobel, Bryan said his murder was encompassed by corporate influences that had determined he should never be governor. He said the man who wrote Gobel he should never be governor is alive now and his name is in connection with the chairmanship of the Democratic national committee.

He said he believed McKinley's indictment of Cleveland in which he said Cleveland made money the master of man, was correctly drawn.

Bryan said he did not want a re-organization of the Democratic party because he did not want the party to take the chance of falling into the hands of the money power.

BECAUSE HIS WIFE WAS DYING.

Young Philadelphian Commits Suicide

by Shooting.

Philadelphia, Feb. 4.—William An-

derson, a young married man of this city, committed suicide Wednesday under pathetic circumstances. He was informed by a physician that his wife, who had given birth to a daughter, was dying. He immediately picked up a revolver and saying, "If she goes, I'm going, too," shot himself through the head. His wife died a few minutes after the shooting and he passed away late at night. Besides the baby they leave a four-year-old daughter.

Farmer's Body Found.

Leverne, Minn., Feb. 4.—The frozen and half-burned body of Martin Enger, a farmer living in Rose Dell township, was found in the ashes of a burned straw pile in a field half way between his home and the village of Jasper. Enger was last seen alive in Jasper on Jan. 23. His watch, money and other valuables are missing.

Baby Perishes From Cold.

Sioux City, Ia., Feb. 4.—After lying unconscious in bed for over two days and two nights in a cold room filled with coal gas Mrs. Leon Aeck is barely alive and her fifteen-month-old baby is dead, having succumbed to the cold and the gas while lying at its mother's side.

IROQUOIS FIRE HEROINE

How Carrie Anderson Saved

Many at Chicago Disaster.

PRISONER ON A HIGH ESCAPE.

With Foot Caught and Enveloped In

the Flames, Which Badly Burned

Her, She Guided a Ladder Across

Which Many Scrambled to Safety.

Rescued With Others.

At the Samaritan hospital in Chicago,

her head and left side swathed in

bandages, lay Carrie Anderson, the

child whose deed of heroism at the

Iroquois fire was recounted in brief

during the coroner's inquest, but whose

name was never learned until the other

day, says the Chicago Record-Herald.

Through the steadfast bravery of this

fourteen-year-old girl at least fifty lives

were saved on the fatal afternoon. She

it was who, despite the fact that her

entire left side was being lapped by

flame, caught the end of the ladder

thrown across the alley from the

Northwestern University building and

guided it to a firm resting place on the

fire escape of the second balcony.

Across this ladder many men, women

and children scrambled to safety from

the inferno behind them.

She was in the balcony with her

mother, who was employed as a cleaner

at the theater, and while she escaped

her mother perished. The child does

not know yet that her mother is dead

and thinks that she is merely badly in-

jured.

"I was in the highest balcony with

mamma," she said in recounting her

experiences to a reporter, "and when

the fire began I jumped up and tried to

pull mamma with me. We got to the

fire escape all right, and I got out on it.

I had hold of mamma, but she did not

reach the open air out of all the smoke

with me, and I saw her kind of fall

back. I know she got hurt, because

she has not been to see me.

"I fell on the escape, and my foot

got caught so that I could not stand up.

I was lying on my right side, and the

fire burned me dreadful on my left

arm and leg and head, but I was too

excited to think much of that then.

There were only two other people on

the escape with me. One was a woman

down below me who couldn't do any-

thing, and perhaps she was dead. Just

beside me was a man. He kept moan-

ing all the time.

"You don't realize what this is, little

girl," he said to me, and then a few

minutes after he began groaning and

crying to God. That was when I was

burning, and he was too. All this time

I had my foot so tightly caught I

couldn't move to get farther away from

the wicked fire; but, anyway, there was

no place to go unless I jumped down

into the alley, where I could see people

away below me. Then the man lay

very still and the fire was worse over

us.

"Then all of a sudden I saw a ladder

in the air coming from the building

opposite us. I don't know how I caught

the ladder because I can't remember

anything clearly after that; everything

hurt so. But I caught it some way,

and then men came across to me and

pulled me out from where my foot was

fastened. They dragged me across the

ladder and a whole lot of people came

after us."

After her splendid deed Carrie was

taken into the Northwestern building

and given temporary relief. Then she

was hurried to the Samaritan hospital.

SPEAKS TO KENTUCKIANS.

William J. Bryan Delivers Address on

Various Topics.

Frankfort, Ky., Feb. 4.—William J. Bryan spoke last night by invitation of the Kentucky legislature to a crowd that filled the Capitol theater, while many were turned away. Both bodies of the general assembly adjourned and held memorial services in honor of William E. Goebel in the hall of the house of representatives. Mr. Bryan and several members of the legislature made eulogistic addresses and an original poem was read and religious services were held at the grave.

Mr. Bryan was warmly received by the audience in the capitol. Mr. Bryan said he hoped Watterson would yet repent and be a Democrat.

Referring to Goebel, Bryan said his murder was encompassed by corporate influences that had determined he should never be governor. He said the man who wrote Goebel he should never be governor is alive now and his name is mentioned in connection with the chairmanship of the Democratic national committee.

He said he believed McKinley's indictment of Cleveland in which he said Cleveland made money the matter of man, was correctly drawn.

Bryan said he did not want a reorganization of the Democratic party because he did not want the party to take the chance of falling into the hands of the money power.

BECAUSE HIS WIFE WAS DYING.

Young Philadelphian Commits Suicide

by Shooting.

Philadelphia, Feb. 4.—William Anderson, a young married man of this city, committed suicide Wednesday under pathetic circumstances. He was informed by a physician that his wife, who had given birth to a daughter, was dying. He immediately picked up a revolver and saying, "If she goes, I'm going, too," shot himself through the head. His wife died a few minutes after the shooting and he passed away late at night. Besides the baby they leave a four-year-old daughter.

Farmer's Body Found.

Leverne, Minn., Feb. 4.—The frozen and half-burned body of Martin Enger, a farmer living in Rose Dell township, was found in the ashes of a burned straw pile in a field half way between his home and the village of Jasper. Enger was last seen alive in Jasper on Jan. 23. His watch, money and other valuables are missing.

Baby Perishes From Cold.

Sioux City, Ia., Feb. 4.—After lying unconscious in bed for over two days and two nights in a cold room filled with coal gas Mrs. Leon Enger, barely alive and her fifteen-month-old baby in bed, having succumbed to the cold and the gas while lying at its mother's side.
